

# Permanent Orienteering Courses in Dorset

Wimborne Orienteers and Wessex Orienteers have, in conjunction with the relevant authorities, established many permanent orienteering courses across Dorset. There are three types of courses available, on Forest, Park Land or Urban terrain and increasingly, you can use your mobile phone to 'punch' the controls as you visit them.

## What is Orienteering?

Orienteering is a physical and mental challenge with the ultimate aim being to navigate between fixed control points marked on a unique orienteering map in the quickest time by deciding the best route for you.

Remember, the quickest route may not always be the shortest!

You can walk, jog or run – it's your choice.

As you visit each control point, you either record your progress on a score card noting down the unique reference numbers on the control posts, or use a phone app to do this for you.

**The main thing about orienteering is it is an outdoor fun activity suitable for all ages.**
