

A message from Roger Crickmore

“As I was leaving the pub tonight I noticed a pair of glasses had been left on a table . I could not see anybody from WIM around so I took them home myself. Could you please send out an e-mail to all entrants saying that I have them and will bring them along to the event at Basingstoke next week. The glasses were in a blue and black case and belong to a long -sighted person

Roger Crickmore “
