

WIM/WSX Summer League Scoring April – September 2024

12 events total: 6 Maprun, 6 Physical. For a full programme please visit <https://www.wimborne-orienteurs.co.uk/d7/sites/default/files/230318%20Summer%20Orienteering%202024%20v2.pdf#overlay-context=node/84>

All events are score courses, usually with a max score of 600 points, and a time limit of 60 minutes.

Lateness penalty is 10 pts per partial minute over the time limit

Separate Maprun and Physical Leagues

Open Scoring (best 4 scores to count)

Event Score = Control Points – Lateness Penalty

All event scores to be adjusted to 500 points max. Calculated as

$$\text{Open League Points} = \text{Event Score} \times (500 \div \text{Winning Score})$$

For typical distances, this ensures that a runner of a consistent standard should expect to receive a similar league score each event regardless of event difficulty - assuming that the speed of the fastest runner is similar across events.

Top 4 scores to count towards league. If 2 competitors have the same final score, whoever has the lowest total time for their top 4 runs comes first.

Age Graded Scoring (best 4 scores to count)

Event Score = Control Points – Lateness Penalty

$$\text{Points per Minute (PPM)} = \text{Event Score} \div \text{Time taken}$$

In order to encourage you to use the full 60 minutes available and not just speed-run the nearest controls (!) to achieve a high points per minute ratio, anyone who does not achieve the maximum number of points has a time taken of 60 minutes.

The **Speed Ratio** is derived from the World Athletics Age Grading System, based on a 10 kilometer race. Your individual speed ratio can be found in the detailed breakdown on **Page 6**.

$$\text{Age Graded League Points (unadjusted)} = \text{PPM} \div \text{Speed Ratio}$$

Your age graded league points are then adjusted as above, such that the winner receives 500 points.

Top 4 scores to count towards league. If 2 competitors have the same final score, whoever has the lowest total time for their top 4 runs comes first.

For example

A 50 year old female runner scores **550 points in 58:30 minutes**; Winner scores 600 pts with Age graded score 14.00 pts.

- Her open score is **458.33 pts** ($500 / 600 * 550$)
- She did not achieve max points, so time taken is 60 mins. Her PPM is **9.17** ($550 \text{ pts} / 60 \text{ mins}$)
- Her speed ratio is **0.78765**, so her unadjusted event score is **11.64 pts** ($9.17 / 0.78765$)
- This is then adjusted to **416 pts** ($500 / 14.00 * 11.64$)

***N.B.** Since Year of Birth is not provided by Racesignup, I have used where possible the club rankings on the BOF website. **If you do not have a BOF ranking, your name is in orange**, and your age graded score is based on the year in your Age Class (e.g. M40 is assumed to be 40 years old). Please contact captain@wimborne-orienteurs.org.uk with your YOB if you would like a more accurate score.*

Combined League:

The same scoring system is used, but your **top 8 scores from any league** are added to give your combined league score. If 2 competitors have the same final score, whoever has the lowest total time for their top 8 runs comes first.

If you have any questions about the scoring, please email Tom captain@wimborne-orienteurs.org.uk
